

ASHA GAIRE

Software Developer

📍 Espoo 📞 045 101 5962 ✉️ ashagairefi@outlook.com 🌐 [Portfolio](#) [in](#) [LinkedIn](#) [Github](#)

PROFILE

Full-stack developer with hands-on experience building web applications using React, Next.js, and .NET technologies. Experience working in Finnish companies in Agile environments, contributing to both frontend and backend development. Comfortable implementing user interfaces, integrating APIs, and working with relational databases. I thrive in collaborative, peer-to-peer environments like Hive Helsinki that value iteration and continuous improvement.

SKILLS

- Frontend: TypeScript, JavaScript, React, Next.js, Tailwind CSS, Material UI, Figma, Canva
- Backend: .NET, ASP.NET, Entity Framework Core, REST APIs, PostgreSQL
- Tools: GitHub, Docker(basic), Agile Methodology, Vercel, Firebase, Agentic assisted coding (Antigravity, Cursor)
- Languages: English (Fluent), Finnish (Intermediate / B1), Nepali (Native), Hindi (Fluent)

EXPERIENCES

Frontend Developer – Nepal Go Association Ry

Feb 2026 – Present

- Refactored frontend codebase using Next.js, Typescript and TailwindCSS to improve maintainability and structure of [PhoneRoster.com](#).
- Built reusable UI components to support consistent development across features and adding new features and UI components based on user needs.

Full-Stack Developer Trainee– Codecontrol Oy

Aug 2024 – Jan 2025

- Developed responsive user interfaces using React, TypeScript, and Tailwind CSS based on Figma designs.
- Implemented backend features using .NET and Entity Framework Core for data-driven applications.
- Integrated frontend components with REST APIs and PostgreSQL databases.

Software Developer Trainee – BearIT Oy

Mar 2024 – Nov 2024

- Worked in an Agile team to develop features for an electricity pricing system using Python for prediction model
- Gained experience with Git workflows and project management skills.

Web Developer – SoftEdge Nepal

Apr 2019 – Jan 2020

- Developed web applications using ASP .NET.
- Implemented CRUD functionality and database integration with PostgreSQL.

PROJECTS

Helsinki Spice

[Demo](#)

- Designed a responsive restaurant web application in Figma and developed the frontend using React, TypeScript, Tailwind CSS, Material UI and Next.js for server-side rendering.
- Architected a full-stack solution with Prisma ORM and PostgreSQL to manage secure admin authentication and CRUD operations for menu data. Deployed with Vercel.

Recibook [Demo](#)

- Collaborated in an Agile team to design and develop a recipe discovery and cookbook application using Next.js and TypeScript.
- Implemented a responsive frontend with Tailwind CSS, Material UI and integrated PostgreSQL with Prisma ORM to manage user-generated recipe content and personal cookbook data. Deployed with Vercel.

Personal portfolio website [Code](#) | [Demo](#)

- Built my portfolio website to showcase projects, skills, and professional experience with an interactive and visually appealing frontend.
- UI designed using multiple UI libraries and frequently updated content. Deployed with Firebase.

EDUCATION

Hive Helsinki, Finland *2026 – 2027*
Software Engineering Program

Aalto University (Open Studies), Finland *2025*
Web Software Development, WWW Applications

Tribhuvan University, Nepal *2014 – 2019*
Bachelor's degree in Computer Science and Information Technology
